Outstanding Achievement Award

This award recognizes exemplary accomplishments in historic building rehabilitation or restoration. Awards in this category are given for complex or large-scale projects. Successful projects in this category will:

- 1) Preserve the exterior historic integrity of a building by retaining a building's significant portions and features through repairs and sensitive alterations (including compatible additions), while making possible an efficient contemporary use; AND/OR
- 2) Restore a building's exterior to its original appearance based on historical or physical evidence (authentic interior rehabilitation or restoration is not necessary, but could weigh heavily in decisions to give this award).

This award recognizes preservation improvements made to historic buildings that contribute to Valdosta's heritage. Awards in this category are given for simpler, smaller scale projects, and do not require extensive restoration or rehabilitation work.

Stewardship Award

This award recognizes property owners for their long-term care, maintenance, stabilization, or protection of a contributing historic building.
