Requesting City: City of Valdosta	Date: 4/15/2026
Issuing Officer: Teresa Davis	RFQ Initially Posted to Internet: 3/09/2026
email Address: tadavis@valdostacity.com	Telephone:

	Questions	Referenced RFQ Section	Answers
1.	<p>15.) City staff will not be responsible for unloading new containers as they have other duty assignments.</p> <p>Does this mean the Vendor is responsible for unloading the truck? Does the vendor need to provide a Forklift and workers to unload?</p>	General	No forklift is necessary. Typically we unloaded the truck too, but if they don't come early in the morning our team is released after they complete their routes so there is no manpower available to unload the trucks. That is why that is in there. Regardless, no forklift is required.
2.	<p>When does the city expect the first delivery of carts?</p>	Delivery	We will be submitting an order as soon as the contract is finalized and then would require delivery within the timelines required by the contract.
