

ADDENDUM NUMBER ONE (1)

September 7, 2026

Project: STALLINGS LIFT STATION & FORCE MAIN IMPROVEMENTS

Owner: City of Valdosta, Georgia

Opening Date and Time: Revised to October 8, 2026 at 2:00pm

The deadline for submitting bids has been extended to Thursday, October 8, 2026 at 2:00 pm. Public opening of bids will begin at 2:00 pm. Additional information regarding this project will be provided in a later addendum.

Background: Late last week, the private developer of the adjoining and surrounding residential/commercial development notified City Engineering Department staff of substantial changes to his development plans. These changes significantly impact the sewage flows for this proposed Lift Station, and – therefore – require redesign of portions of the Lift Station. Once final input is received from the private developer, construction plans and the scope of the project will be modified and revised bidding documents will be issued. There will also be an extension issued at that time to extend the period for questions/RFI submittals.

Submitted,

Charlie Clark, P.E.
Engineering Services Manager
