### Variance Questionnaire

The Valdosta Land Development Regulations state that in order to promote the public health, safety, morality and general welfare of citizens against the unrestricted use of property, certain “Standards for the Exercise of Zoning Powers” may be used by the governing body when making zoning decisions. The applicant is encouraged to respond to these questions to gain understanding as to why rezoning requests may or may not be approved. *(Attach additional sheets as necessary.)*

- 1) Please explain the purpose of the requested variance and the intended development of the subject property if the variance is granted.

---

---

---

---

---

- 2) Please indicate the specific provision from Title 2 of the Valdosta LDR from which the variance is requested.

---

---

---

- 3) Per **Section 242-9(i) of the City of Valdosta LDR** the Zoning Board of Appeals shall not approve a variance from the terms of the LDR unless it has, in each case, made specific findings of fact based directly up on the particular evidence presented and supporting written conclusions that the variance meets each of the criteria listed below. Please explain how the requested variance meets each of the following:

- A. The need for the variance arises from a condition that is unique and peculiar to the land, structures, and buildings involved.

---

---

---

---

---

- B. The variance is necessary because the particular physical surroundings, the size, shape or topographical condition of the specific property involved would result in unnecessary hardship for the owner, lessee or occupants; as distinguished from a mere inconvenience, if the provisions of **Title 2 of the LDR** are literally enforced.

---

---

---

---

---

C. The condition requiring the requested relief is not ordinarily found in properties of the same zoning district as the subject property.

---

---

---

---

D. The condition is created by the regulations of **Title 2 of the LDR** and not by an action or actions of the property owner or the applicant.

---

---

---

---

E. The granting of the variance will not impair or injure other property or improvements in the neighborhood in which the subject property is located, nor impair an adequate supply of light or air to adjacent property, substantially increase the congestion in the public streets, increase the danger of fire, create a hazard to air navigation, endanger the public safety or substantially diminish or impair property values within the neighborhood.

---

---

---

---

F. The variance requested is the minimum variance that will make possible the reasonable use of the land, building or structures.

---

---

---

---

4) Please explain how the proposed variance is consistent with the general spirit of **Title 2 of the Valdosta LDR** and the policies and guidance of the **City of Valdosta Comprehensive Plan**.
